DIGITAL MEDIA PROJECTS

Dec. 2018

UX design for a customized dieting app

Vegetabowl recommends customized salad and decides how much nutrition they should intake according to body data.

Jan. 2019

UX design for a desktop application

An application uses a game to encourage users to exercise to ease the pain caused by long time sitting by the desk.

Nov. 2018

VR trip to Berlin/Paris

Cooperating with Köln International School of Design students, we developed the future of news and narrative with technology such as VR, AR and 360 cameras.

Sept. -Dec. 2018

Storytelling with motion capture

Cooperating with Tongji University, we used motion capture to tell a story between digital characters and physical world.
